I was doing a search from the dashboard and clicked a link from the results page for a Lenovo surface killer. Got this page and cannot close with the [X]. I did alt-ctrl-del – task manager – click Edge process – stop process. This closed Edge.

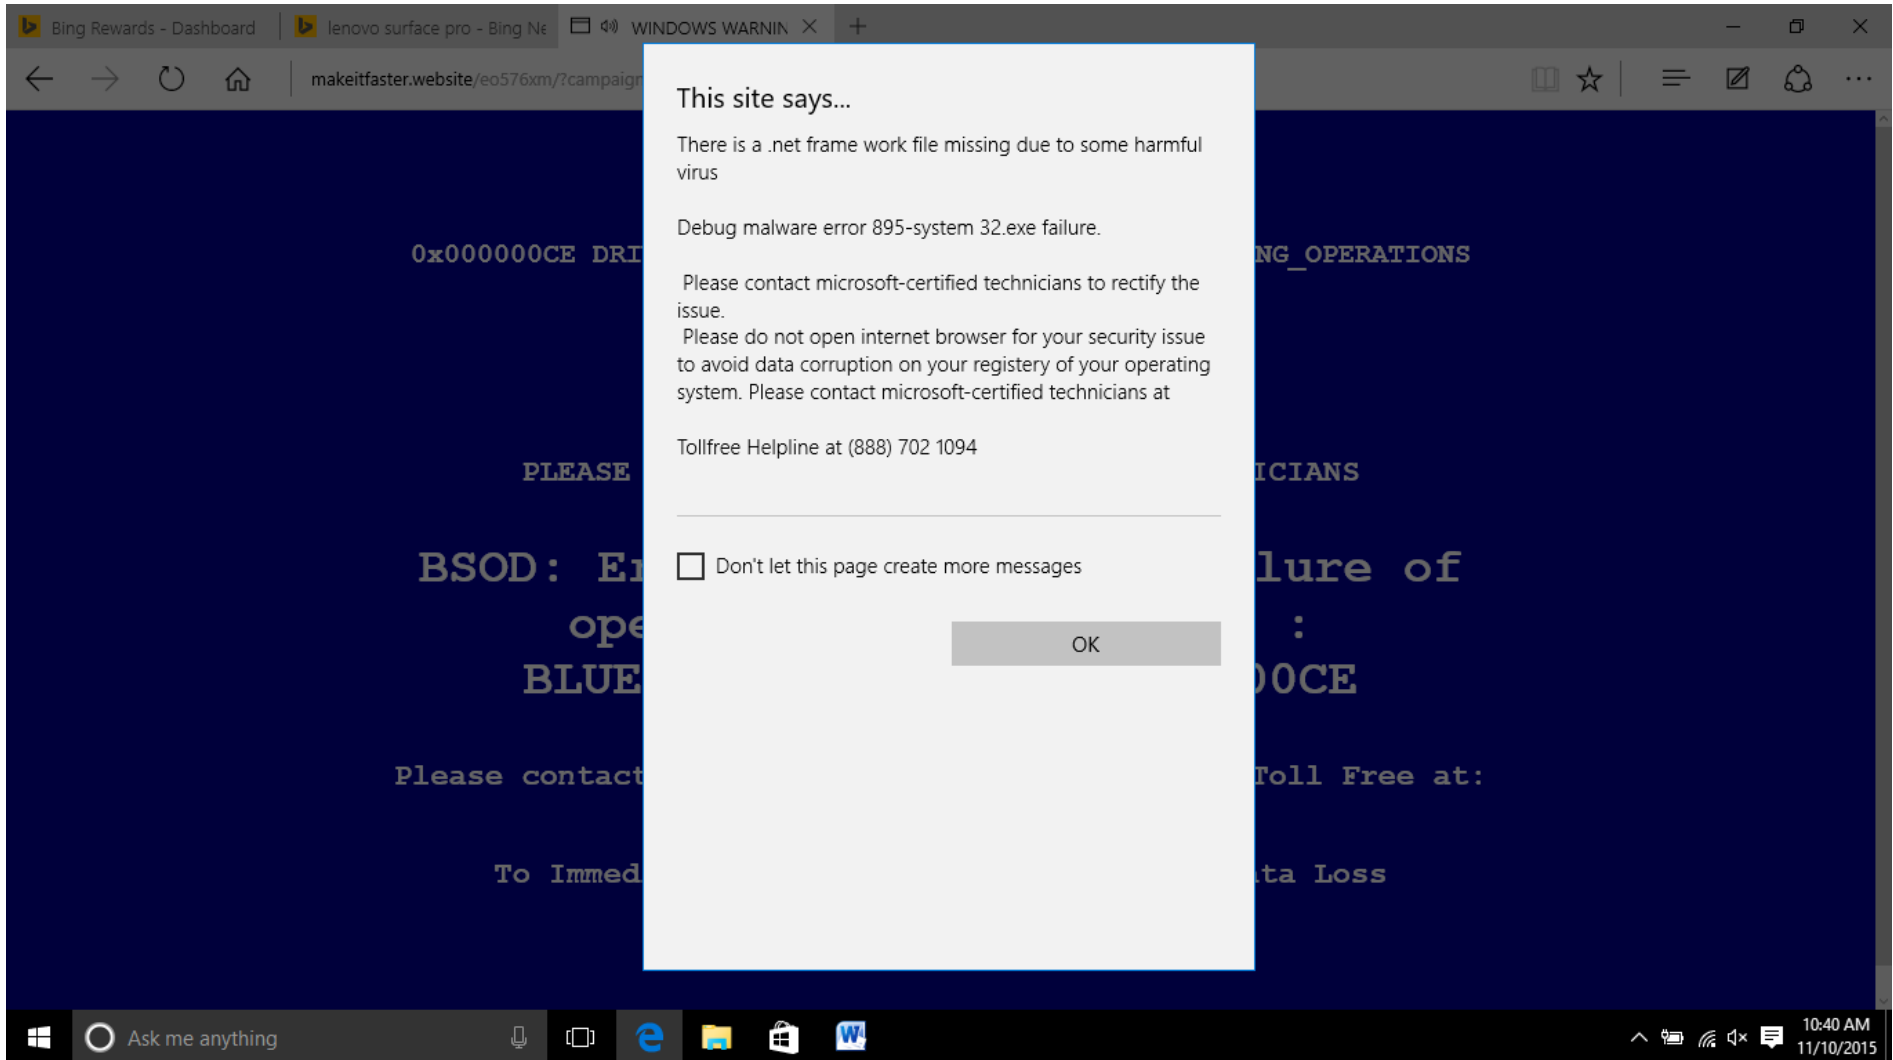

November 10, 2015 at 10:35am   Windows 10 Pro

When open Edge the above page comes up again.

Click OK get this screen. Click OK this keeps coming up.

I did alt-ctrl-del again – task manager – click Edge process – stop process. This closed Edge again.

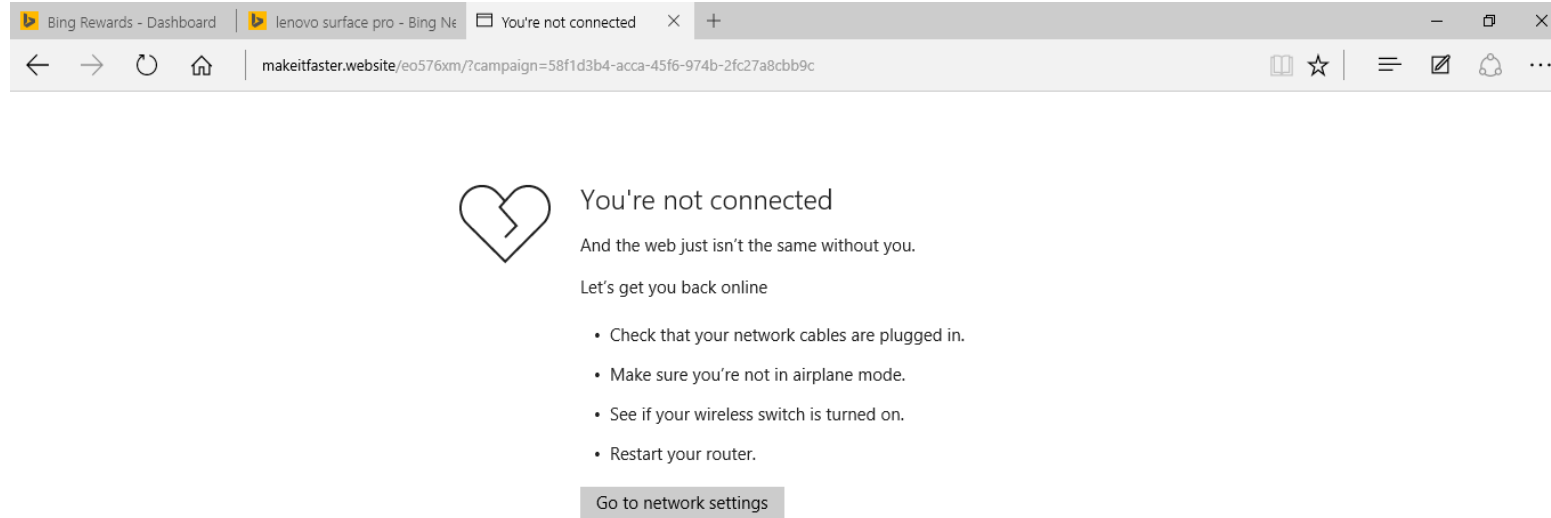

Run Ccleaner and Malwarebytes and nothing found. Run Windows Defender antivirus nothing found.

I disconnected my wireless connection. Still not restart or power off laptop yet .
Disconnect from internet. Get this screen when Open Edge.
This is the bad site >>> http://makeitfaster.website/eo576xm/?campaign=58f1d3b4-acca-45f6-974b-2fc27a8cbb9c

Type in a web site and press enter. Do it 2 times. Reconnect your internet – wired or wireless.

Open Edge – Goes to my home page. All is well. Still have not shut down my laptop yet.

November 10, 2015 10:35am – fixed by 11:15am.

Will have to wait and see if the next search will give me the 895-system32.exe failure error again.

Reboot laptop and all is well so far. See below search results.

Got a ton of hits on a Google search about this problem – Item searched : 895-system32.exe failure
Here is a few ….I did not follow either one.
